Subject Democrats' first bill would kill the tax caps you just passed

Carol,

Just four days ago, Granite Staters told the Legislature two things: they wanted Democrats in control, and they wanted a property tax cap.

Almost 59 percent of you voted for the cap. 355,152 Granite Staters, more votes than any candidate for governor got, in 201 towns

and cities.

Now a House Democrat has filed a bill to kill it.

LSR 2027-0344, sponsored by newly elected Rep. Eileen Kelly of Bradford, would wipe out the property tax caps voters enacted on Tuesday. Under the tax cap law, each local cap is in place for two years and goes back to voters in 2028. Her bill repeals that 2028 vote. Every cap passed this week would expire, and you would never get the chance to keep it.

Her own town of Bradford

voted YES.

The Legislature is going to be nearly 75 percent Democrats next term, and the first order of business for the new majority seems to be ripping away the property tax cap voters themselves enacted. Bold strategy. Let's see if it pays off for them.

Let's make sure it doesn't.

Please call the House Democratic Office today at (603) 271-2136 and tell them:

"I voted for the tax cap.

DO NOT REPEAL THE TAX CAP."

The script and a tap-to-call button are here: **ctehr.gop/taxcap**

Give your name and your town. If you get voicemail, leave a message. Then forward this to everyone you know who voted YES and ask them to call too.

You passed it. Now let's protect it!

Thank you,

Jason Osborne
